

Human Diversity - Challenges and Chances

Discussing issues of cultural, political and religious
diversity on various levels

12th International Internet Conference for students aged 14+

► Get the unique experience of an international internet conference! Students from many countries, international experts and the conference team are waiting for you! Join our conference, work and discuss from any internet computer worldwide, at your school, at home or in your internet café!

14 April, 2011
00:00 - 24:00 UTC

(Check what this is in your local time on our website!)

► Human Diversity – a key issue today.

We are mixing. Globally, more and more people live in an area, in a country they were not born to. Never in history have so many different people lived together in the same place, the same city, the same country. This new human diversity is a challenge and a chance. Let's discuss these challenges and chances. Worldwide. At our next conference!

► **Again in 2011: interactive pages and a resolution.** Work with our interactive pages as a tool for your individual conference preparation. Upload your own contributions for all other participants! Work with "Human Diversity – Challenges and Chances", be prepared when the conference starts and take part in the decision making during the worldwide conference. The Agenda 21 NOW! Resolution will be presented to UNESCO and to the public in May 2011.

► Agenda 21 NOW! is an annual telecommunication project initiated by a team of teachers and students from currently six schools* in five countries and is also a pilot project of the German UNESCO Associated Schools.
